

CAREERS WITH DLX

Deployed Logix // Production Assistant

The DLX Production Assistant is responsible for assembling, packaging, and preparing orders for Deployed Logix's line of innovative disaster preparedness products. The DLX Production Assistant must be a flexible and collaborative thinker with an eye for detail, capable of being on their feet for the duration of the day, driving a forklift, moving heavy inventory and materials across facilities, and comfortable with the organization of large bulk items.

This full-time position requires a person who has a good attitude, strong work ethic, and enjoys being part of a team. Pay is based on experience with the opportunity for monthly bonuses (yes, you heard that correctly!) as well as annual raises. Health insurance is included. Applicants must agree to a background check.

Grow with us! Deployed Logix began in 2012 and is rapidly growing. With a loyal and developing customer-base around the world, we pride ourselves on being a locally-owned business of quality, innovative products, crossing borders and oceans to carry on our mission of developing the best and fastest life-saving products for first responders.

DLX is both a team-driven and a self-driven environment that thrives on the different skillsets that each member brings to the table. We are a family-oriented crew that invites partners and children of DLX team members to be part of our culture. We understand that work/life balance can be a difficult juggling act and we strive to provide a place where you can succeed in both.
