

BY DEPLOYED LOGIX

BEST CASE™

FOR YOUR WORST CASE

THE BEST CASE BY DLX™

INTERLOCKING DESIGN

The Best Case by DLX™ features a modular and interlocking design on the top and bottom to allow for safe and secure stacking. Cases will maintain an interlocking stack at a minimum angle of 45 degrees without slipping or sliding out of a locked position.

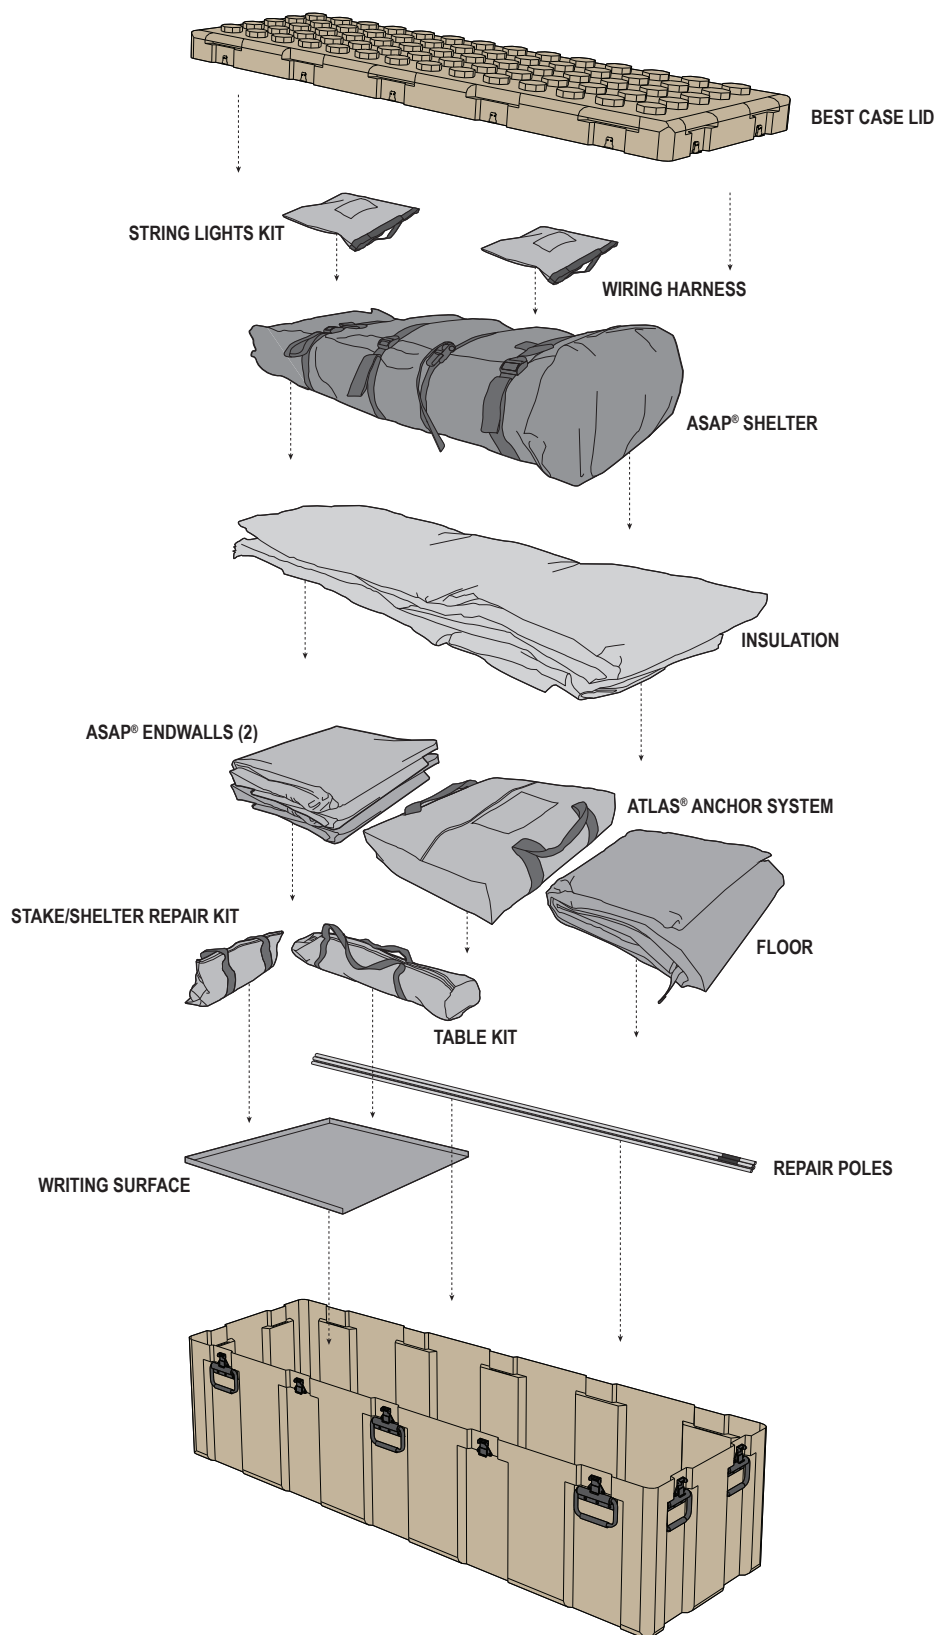

WATER AND WEATHER RESISTANT

Rotationally molded plastic inserts eliminate leak paths, keeping your equipment protected from the elements. Best Cases are dustproof and water-resistant when closed appropriately, protecting your equipment and preventing corrosion or the collection of hazardous materials.

FIELD-TESTED AND APPROVED

These ultra-durable cases have been deployed worldwide and are proven effective, even in the toughest conditions. All cases come equipped with a tight automatic pressure release valve for air transport.

PUTTING IT ALL TOGETHER

Each ASAP® Mission Ready Package is packed in a Best Case by DLX™ to ensure maximum protection and ease of storage.

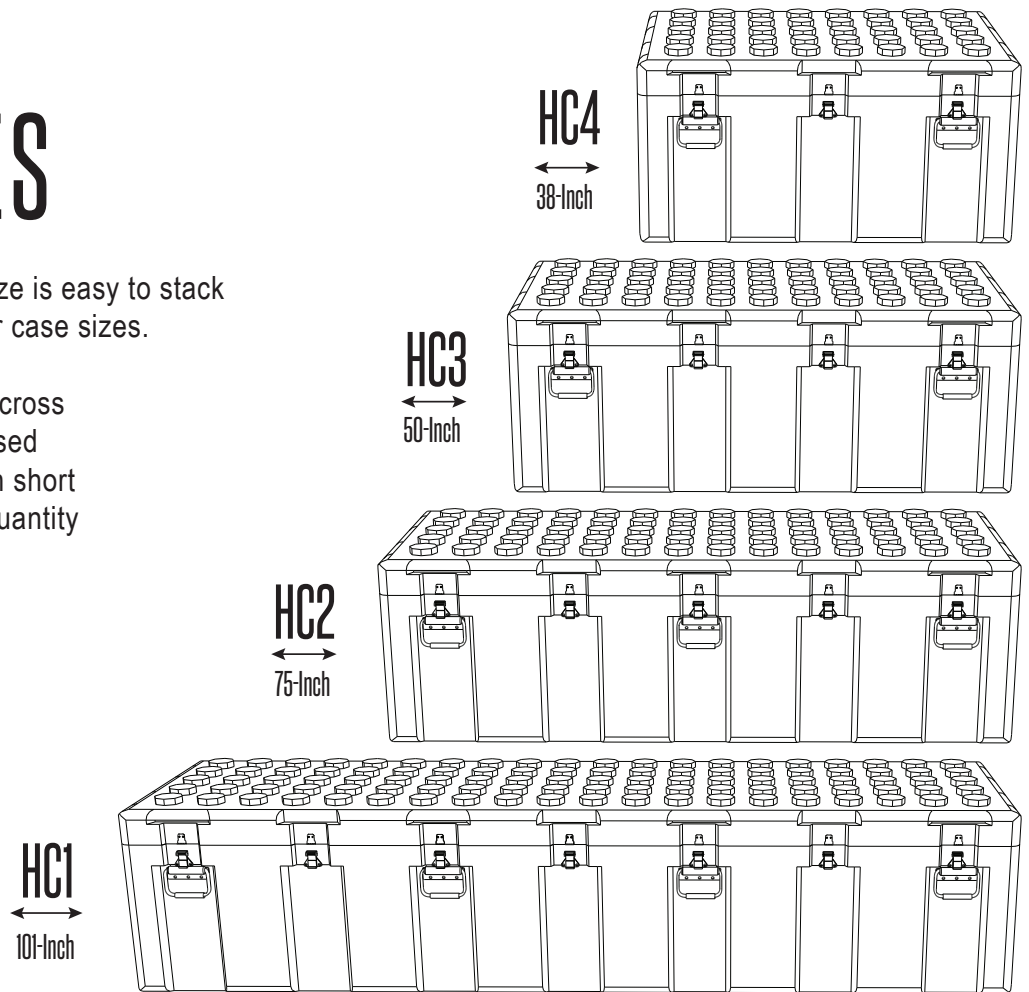

The DLX ASAP-MRP® is a complete solution for rapid deployment that includes all the components necessary to let you and your team be the first to deploy, every time.

FOUR SIZES

Each Best Case by DLX™ size is easy to stack and fully interlocks with other case sizes.

Caster quantity is standard across all case sizes. Two (2) recessed handles are standard on both short ends of cases; side handle quantity varies with case size.

Lid and base height is standard across all case sizes.

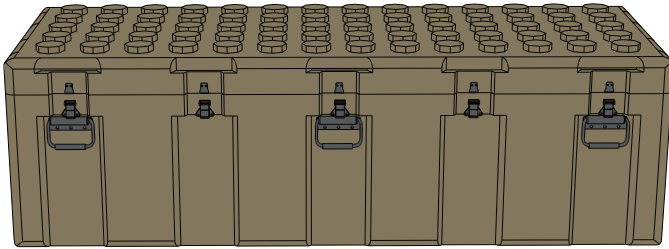

MODEL	MODEL HC1	MODEL HC2	MODEL HC3	MODEL HC4

ULTRA-DURABLE

The Best Case by DLX™ is constructed of tough rotationally molded linear low-density polyethylene. The material is first-time use ("non-recycled") resin plastics.

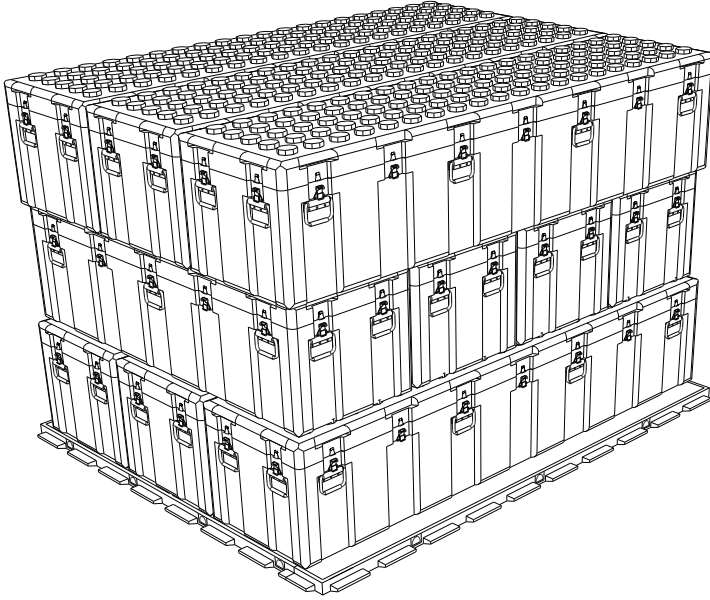

The indentations for the case hardware (handles, latches, locks, hinges, etc.) are set during the rotational molding process – not after; eliminating leak paths, corrosion, and collection of hazardous material.

All hardware is recessed to protect it during transport and can be replaced with a standard screwdriver.

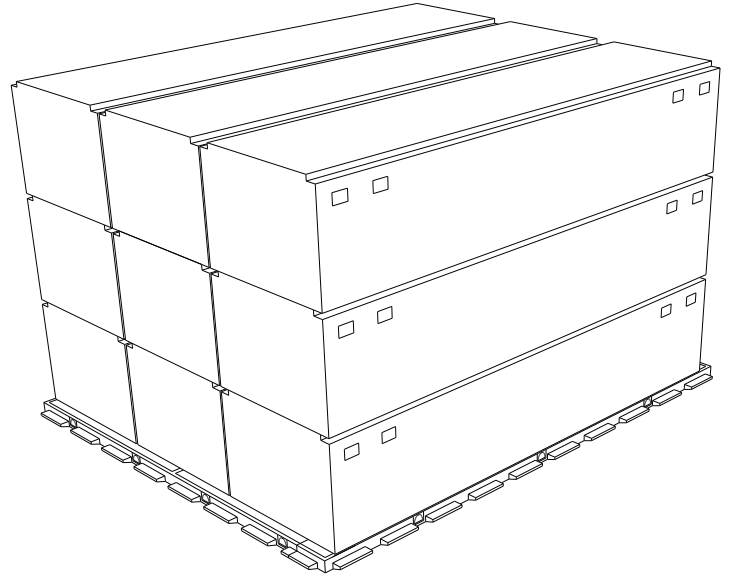

463L COMPATIBILITY

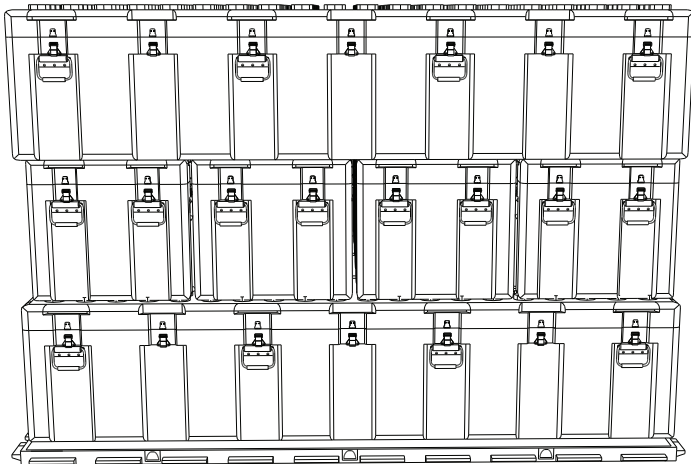

For added versatility and transportation options, The Best Case by DLX™ is compatible with 463L pallets, dimensions: 108 x 88 inches (274.32 x 223.52 cm). Additionally, DLX offers custom metal cases that are compatible with 463L pallets upon request.

PLEASE NOTE: A FOURTH ROW OF CASES MAY BE ADDED TO THE PALLET DEPENDENT ON WEIGHT LOAD AND CONFIGURATION.

FIT ANY NEED

The Best Case by DLX's safe stacking technology makes them an ideal solution for trailer transportation. Allow our team to handle the logistics of packing plans and weight load, so all you have to worry about is your mission.

Have some gear that needs a little extra cushion? We offer foam padding for case interiors. Custom foam inserts are also available with a minimum order quantity. In any case, make sure it's protected by the Best Case.

The simple addition of the table conversion kit turns a Best Case by DLX™ into a standing desk with a smooth writing surface in moments. With proper assembly, the table can support up to 350 lb (158 kg).
