Deployed Logix // Accounting Manager

About Deployed Logix:

Deployed Logix is an innovative provider of rapidly deployable solutions, specialized in quick setup shelters and related equipment. Our products play a vital role in supporting disaster relief, military, and outdoor expeditions across the globe. Our team is composed of dedicated professionals who strive to provide optimal service and solutions to our clients. Our goal is to provide solutions that can be deployed anywhere, at any time.

Position Overview:

The Accounting Manager is responsible for overseeing and coordinating all accounting and financial activities within the organization. This position is focused on the manufacturing industry in a private company setting.

Responsibilities:

- Team Supervision: Direct and manage the accounting team, including accountants, financial analysts, and other professionals.
- Assign tasks, review work, and provide guidance and training as needed.
- Financial Reporting: Prepare and analyze financial statements, such as the balance sheet, income statement, and cash flow statement.
- Ensure that the reports comply with accounting and tax laws principles and local/international standards.
- Budgeting and Financial Planning: Participate in the development of the annual budget and long-term financial planning.
- Monitor financial performance and conduct comparative analysis to identify areas for improvement.
- Compliance: Ensure compliance with relevant accounting regulations, laws, and company policies.
- Oversee internal and external audits, providing necessary documentation and addressing any findings.
- Cost Analysis and Control: Monitor and analyze manufacturing costs, including direct materials, labor, and overhead expenses.
- Implement cost control measures to optimize operational efficiency.
- Inventory Management: Coordinate with the inventory team to ensure accurate valuation and tracking of inventory.

- Conduct periodic inventory reconciliations and address any discrepancies.
- Financial Systems and Processes: Evaluate and enhance accounting systems, processes, and internal controls.
- Implement best practices to streamline financial operations and increase accuracy.
- Financial Analysis and Decision Support: Provide financial analysis and insights to support management decision-making.
- Conduct profitability analysis, variance analysis, and financial forecasting.

Qualifications:

- Bachelor's degree in Accounting, Finance, or a related field. A CPA designation is preferred.
- Proven experience in accounting and finance roles, with specific experience in manufacturing industries.
- In-depth knowledge of accounting principles, regulations, and financial analysis techniques.
- Strong proficiency in financial software and Microsoft.
- Excellent leadership and communication skills.
- Ability to work effectively in a fast-paced environment and meet deadlines.
- Attention to detail and a high level of accuracy in financial reporting.

Ultimately:

The successful candidate will be a strategic thinker with excellent communication and leadership skills, capable of working collaboratively with members of the senior management team to drive the continued growth and success of Deployed Logix.

Deployed Logix is an equal-opportunity employer. We celebrate diversity and are committed to creating an inclusive environment for all employees.

To apply, please submit your resume and cover letter outlining your qualifications, interest in the position, and salary expectations.

Applications will be accepted until the position is filled.

Thank you for considering a career at Deployed Logix.
